

Remote Vapor Thermometers

Marshalltown vapor tension thermometers offer the ideal solution for applications that require remote readings within the -40° to 240°F (-40° to 115°C) range. Typical vapor tension thermometer applications include food processing equipment, milk coolers, air conditioners and air ducts, hot and chilled water systems, boilers, pipelines, tanks and industrial ovens...Wherever remote readings are needed.

Specifications

Case Material

Black steel

Fill Fluid

None

Lens Material

Acrylic

Dial

White aluminum with black lettering

Pointer

Black aluminum

Accuracy

± 3%-2%-3%

Movement

Brass sector with polycarbonate side plates

Bulb Length

2½" standard, optional 3½" & 4½"

Case Styles

Flush u-clamp, three hole front flange, rear flange or plain.

Sizes

2", 2½", 3½" & 4½"

Capillary

6 feet standard, for longer capillaries insert length to end of part number i.e. for a 10 foot capillary the part number would be K35250-010

K35250
